SUMMARY

Computer Science (IoT) undergraduate with hands-on experience in full-stack web development, backend development, and machine learning. Experienced in building real-world web applications using Next.js, Node.js, Express.js, PostgreSQL, and MERN stack, along with developing ML models using Python and Scikit-learn. Good understanding of DSA, DBMS, Operating Systems, Computer Networks, and software development.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), Python, C

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Hono.js, REST APIs

Databases: MongoDB, MySQL, PostgreSQL

Machine Learning: Python, NumPy, Pandas, Scikit-learn, XGBoost, Matplotlib, Data Preprocessing, Feature Engineering, Model Evaluation

DevOps & Tools: Git, GitHub, Docker (Basic), AWS (EC2, S3), CI/CD, Postman, Linux

EXPERIENCE

Machine Learning Intern — National Institute of Advanced Manufacturing Technology (NIAMT), Ranchi | Jun – Jul 2026

- Developed an end-to-end **Heart Disease Detection** system using Python, Pandas, Scikit-learn, and XGBoost by comparing multiple machine learning algorithms.
- Performed data preprocessing, feature engineering, hyperparameter tuning, and model evaluation using Accuracy, Precision, Recall, and F1-score to improve prediction performance.

Coding & Technical Club Lead — GEC Vaishali | June 2025 - Present

- Led weekly coding sessions and contests for 50+ students; mentored peers in full-stack development and competitive programming.
- Directed hands-on Arduino/ESP32 training workshops, guiding students to build real-world embedded and IoT projects.

PROJECTS

Riwaz Events — Event Marketplace Platform | Next.js, Node.js, Express.js, PostgreSQL | 2026 | [Live Demo](#)

- Built a full-stack **event marketplace platform** that helps users discover and book venues and event services such as catering, photography, decoration, entertainment, and makeup.
- Developed the application using Next.js, Node.js, Express.js, and PostgreSQL, building the frontend, backend APIs, and database-driven workflows.
- Implemented venue and service discovery, filtering, user authentication, partner listings, booking workflows, and a **20% advance token payment flow using Razorpay**.

KhetiGrow — Agri-Tech Platform | MERN Stack | Freelance | 2025 | [Live Demo](#)

- Full-stack agricultural platform for crop management, expert consultation, and equipment rental with role-based access control and CI/CD cloud deployment.

Quantevo — Smart Test Portal | MERN Stack | Freelance | 2025 | [Live Demo](#)

- Secure online test platform featuring JWT authentication, real-time timer, auto-evaluation, full-screen enforcement, and anti-cheating mechanisms.

EDUCATION

B.Tech in CSE (IoT) — Government Engineering College Vaishali, Bihar

2023 – 2027 | CGPA: 8.24

Relevant Coursework: DSA, Operating Systems, DBMS, Cryptography & Network Security, Computer Networks, IoT Architecture

ACHIEVEMENTS

- 1st Rank — Coding Contest at the 2nd ISTE Bihar & Jharkhand Students' Convention 2026
- 1st Rank — Internal Smart India Hackathon (SIH 2025), GEC Vaishali
- 1st Rank — Web Wizard Competition, Vision 2025 Tech Fest, GEC Vaishali
- SIH 2024 National Finalist — MERN-based alumni portal (Government problem statement)

INTERESTS

Full Stack Development, Backend Systems, Machine Learning, Artificial Intelligence, System Design, AI-powered Applications, Reading Books, Chess, Table Tennis
